Using EMRS2 for permitting

- To use EMRS2, all locations need a Prem ID
- To generate permits from EMRS2 – need trained staff
- Permit requires approval at both ends of permit in EMRS
- Template used to merge data from EMRS2 into a permit document

PERMIT**MOVEMENT OF DAY-OLD POULTS OUT OF A CONTROL AREA**

Permit Information	
Permit number:	«Permit_Name»: «movementName»
Issued:	4/14/2015
Type:	«M_Items_Moved» «Item_Unit» «Items_Moved», «Item_Description»
From :	«Origin_Premises_Prem_ID» «Origin_Premises_Prem_Name» («Origin_Premises_Prem_Address_1» «Origin_Premises_City», «Origin_Premises_State» «Origin_Premises_Zip»)
To:	«Destination_Premises_Prem_ID» «Destination_Premises_Prem_Name» («Destination_Premises_Prem_Address_1» «Destination_Premises_City», «Destination_Premises_State» «Destination_Premises_Zip»)
Date of movement:	«Date_Moved»
Email permit to:	«Origin_Business_e_mail»

Conditions	
1	Poults will be moved in clean reusable or new paper boxes with clean reusable or new pads.
2	Trucks and trailers will be cleaned and disinfected before poults are loaded.
3	Prior to coming onto the hatchery premises and or backing into the loading dock, the wheels and undercarriage will be sprayed with disinfectant.
4	Truck drivers must use full coverage on each farm of delivery (hairnet, mask, coveralls, gloves, and disposable boot covers) and follow protocols for movement between the farm and truck.
5	Floor mats, pedals, seat, and shoes must be sprayed with disinfectant and tires and undercarriage disinfected before leaving the farm.

Authorized by <i>Linda C Glaser, DVM</i> Board of Animal Health	Date 4/14/2015

MN Permitting Stats

- Hours worked
 - 288 staff hours/week
- Total Permits
 - Poultry and eggs - 931 permits / 3,074 movements
 - Feed: 553 permits / 5,587 movements
 - Slaughter product: 1,399 permits / 4,628 movements

4-State Permitting Survey

- Permitting done by state or state led staff
 - WI turned all permitting over to HPAI unit
- All permit information went into EMRS2 but after the permit generated for IA and SD
- Core poultry products permitted
 - Other permits varied between states
- #1 Difficulty IA, MN, WI– Time / staff to complete permits

Preparation

- Where will permitting fit in your ICS structure?
 - Who will make final decisions?
- What will you permit / not permit?
- Where will data be stored?
- How will permits be generated?
- How accurate is your premises information?
